BENEFITS

OVERVIEW

3400 SERIES SAFES:

COLLECT & SECURE CASH:

3400 series safes include a drop drawer with an anti-fish baffle and five cubic feet of storage space. Funds can be secured with single or dual combinations, and an additional padlock may be applied in situations of heightened risk. Your cash is secured against robbery with wrong-try lockout and a door handle that breaks off during forced attack.

DISPENSE CHANGE:

Our 120-tube vending magazine is simple to load and count with capacity for 12 tubes in each of 10 columns. The inner view provides a visual count of your change funds, eliminating the need for a dipstick or physical count. The vending magazine can be easily accessed to reposition askew vending tubes. The time-delay feature provides convenience and security with immediate access to the first tube and a programmable delay of up to 15 minutes for subsequent tubes.

3475
MODEL

The CacheSYSTEM® 3400 is the most user-friendly time delay dispensing safe in the industry. It has the largest change fund capacity with 120 tubes, yet it is easy to audit, simple to load, and virtually maintenance free.

For businesses needing a secure change fund but not requiring an audit trail, the CS-3400 is a cost-effective solution.

The vending magazine has been designed with your cash security top-of-mind; it allows for a visual inventory so that cash exposure is limited.

Tubes can be manually loaded and adjusted, reducing maintenance calls.

Additionally, the vending magazine can be secured with a padlock if there is a need to grant some employees access to the safe's contents, but prevent access to the change fund within the vending magazine.

Dimensions

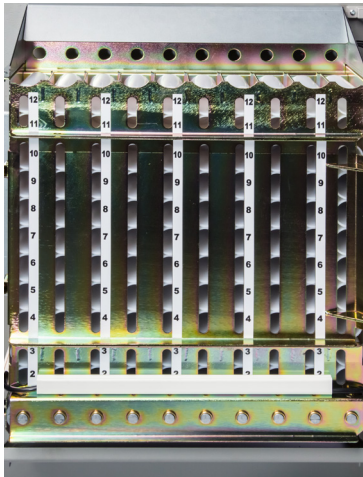

21 1/2"W x 20"D x 31"H, approximately 380 lbs.

Power supply:

Auto ranging for international or domestic use

FEATURES

OVERVIEW

STRUCTURAL FEATURES

- 1/2-inch steel plate self-locking vault door
- Three 1-inch chrome-plated locking bolts protected by a drill resistant hard plate and a spring-loaded re-locker
- Interlocking back flange to prevent hinge attack
- Four floor holes for bolt down
